SUPERIOR. This rapidly increasing city, the judicial seat of Douglas county, is located at the west end of Lake Superior, on the C. St. P. & O. Ry, the Wisconsin division of the N. P. R. R., the eastern division of the G. N. Ry, the D. S. S. & A. Ry., and the S. P. & D. R. R., 320 miles, air line, northwest of Milwaukee, 150 northwest of St. Paul, and just across the bay from Duluth, Minn., with which it is connected by half-hourly ferry boats and two railroad bridges. The Wisconsin Central Line and the M., L. S. & W. Ry, enter the city via the N. P. R. R. from Ashland and the east. Superior embraces the plats of East Superior and West Superior each having its own postoffice and several other plats, all covering an area of about 39 square miles, on a level plateau. The plat of South Superior has been lately added and several large manufactories are being built on this addition. It is laid out on a liberal scale, with broad streets and avenues, and fronts on the capacious and land-locked deep harbor bays of Superior, St. Louis and Allouez. It contains Catholic, Baptist, Congregational, Methodist, Presbyterian, Methodist Episcopal, Episcopal, Norwegian, Swedish Lutheran churches, 8 public school buildings, with several more in course of construction, 8 banks, 3 large saw mills, 3 planing mills, iron works, 3 brick yards, machine shops, steel barge works, forge works, 2 breweries, immense coke ovens, 4 extensive coal docks, the largest on the lakes, with a capacity of 2,500,000 tons, the receipts for 1889 amounting to 720,000 tons, several merchandise docks, 5 grain elevators, with a capacity of 8,500,000 bushels, the receipts for 1889 being nearly 10,000,000 bushels, and the wheat shipments 6,387,443 bushels, while the minor branches of commerce and the learned professions have a thorough representation. The city is lighted by gas and electricity, has both Bell and Cushman telephone systems, 3 miles of electric street railway, 10 miles of direct pressure water mains, a well equipped and efficient fire department, supported by steam fire tugs, 2 daily and 7 weekly newspapers, first class hotels and all the appointments and facilities of a modern commercial metropolis. The growth of the city within the last 3 years has been almost phenomenal. The cost of buildings and improvements in that time amounting to nearly $8,000,000. New buildings are going up both in the business and residence portions of the city, fresh manufactories are locating here and old ones enlarging their capacity. The price of real estate is steadily advancing, and the outlook for the future is all that could be desired even by its most earnest and sanguine well-wishers. Coal, wheat, lumber, iron, brick, sandstone and slate are shipped. Bonded debt, $150,000; assessed valuation of real and personal property, $30,000,000. Exp., Adams, Am. and N. P. Tel., W. U. Population West Superior, 9,000; East Superior, 4,000, and other divisions 2,000, a total of 15,000. G. L. Rice, postmaster at West Superior (West End), and J. L. Christie, postmaster at Superior (East End. Postmaster at South Superior, A L. Moore.

TOMAHAWK. Is located on the C., M. & St. P. Ry, at the Junction of the Wisconsin, Tomahawk and Somo rivers, in Lincoln county, 1 mile above the great Tomahawk dam, costing $350,000, the largest but one in the United States, 25 miles north of Merrill, the judicial seat, and 5 south of Bradley, on the Sault Ste. Marie river. It was platted in the summer of 1887 and now contains Catholic, Congregational and German Lutheran churches, graded schools, a bank, saw, stave and shingle mills and two ably edited and progressive weekly newspapers, the *Tomahawk* and the *Blade*. Tomahawk is growing rapidly, numerous manufactories are locating here, and it bids fair to be the most important point on the Wisconsin river. Splendid advantages are offered to manufacturers and others desiring to come here. Exp., Am. Tel., W. U. Stage twice daily to Bradley. Population, 2,100. Frank A. Larson, postmaster.

TWO RIVERS. A flourishing incorporated city in Manitowoc county, 6 miles north of Manitowoc, the judicial seat and nearest banking point, 31 from Sheboygan, 36 from Green Bay, 25 from Kewaunee and 85 miles from Milwaukee, beautifully situated on the shore of Lake Michigan and between two small rivers, making a fine harbor. It contains a saw mill, a chair and wooden ware factory, a wooden type factory, a printers' wood goods factory, a brewery, a live weekly newspaper, the *Manitowoc Chronicle*, and a graded school. The shipping facilities are good, being the terminus of the M., L. S. & W. Ry. Stages are the only means of travel north, as the Goodrich line of steamers do not call here, having some agreement with the railroad that keeps them out. Stages daily to Kewaunee; fare, $2.00, to Ahnapee; fare, $2.50 and to Green Bay; fare, $2.00. Exp., U. S. Tel., W. U. Population, 2,883. Wm. Hurst, postmaster.

VIROQUA. First settled in 1851, and incorporated in 1885, is a thriving city in Viroqua township, Vernon county, of which it is the judicial seat. It is on the C., M & St. P. Ry, 32 miles from Sparta and 202 from Milwaukee. The surrounding country is very fertile, and considerable shipments are made of grain, live stock, wool, hoop poles and railway ties. The city has a machine shop, an axe handle factory, 3 churches, Methodist Congregational and Christian; high and graded schools, a private bank, a public library of 1,000 volumes, and a public hall seating 800. Two weekly newspapers, the *Vernon County Censor* and the *Vernon County Leader*, are published. The city is supplied with water works. Stages, daily to La Crosse; fare, $1.50, and regularly to all neighboring villages. Tel., W.U. Exp., Am. Population, 1,200. H. A. Chase, postmaster.

WATERMAN. A discontinued post-office in Clark county. Send mail to Unity.

WATERTOWN. Is situated on the line of Jefferson and Dodge counties, five out of its seven wards being located in the former, and the other two in the latter county. It is a flourishing incorporated city, located at the junction of the C., St. P. & M. short line of the C., M. & St. P. Ry, the M. division of the same road and the J. W. & F. line of the C. & N. W. Ry, 44 miles northwest of Milwaukee, 38 northeast of Madison, 47 southwest of Fond du Lac, and 40 northeast of Janesville. Rock river furnishes power utilized by 3 large flouring mills, 2 breweries, 3 planing mills, a furniture factory, an aerated water manufactory and 2 apiarists' supply factories. The city also contains 2 foundries, several cigar factories, 4 brick yards, a wholesale bakery and candy factory, and many other factories, giving evidence of the prosperity of the city. Religion is represented by Episcopal, Congregational, German and English Methodist, Baptist, Lutheran, Evangelical, Moravian, Catholic and German Catholic, and Welsh Methodist churches. The Catholic, especially, are costly and elaborate edifices, and are ornaments to the city. The educational wants are supplied by the College of Our Lady of the Sacred Heart, the Northwestern University, under the control of the Lutheran body, good private and public schools. There are located in the city 2 banks, and 4 weekly newspapers (2 English and 2 German). Dr. Valerius & Co. carry on quite an extensive business in the line of exporting and importing horses, thus making their trips profitable each way, to and from Europe, and have gained a reputation as breeders and importers of Clydesdale and English Shire stallions. They received 5 importations in 1890. A. H. Hartwig carries on an active business in importing and breeding fine horse stock, and Charles Fuermann, of the A. Fuermann Brewing Co., is engaged quite extensively in breeding, making this city quite an important point for horsemen. Knuert Bros.' machine and boiler manufactory has been transformed in to a stock company in order to extend business. Watertown is located in a rich agricultural region, and is one of the best markets for produce in the State. The shipments comprise cheese, flour, grain, manufactured articles, dairy produce, brick, cigars, hops, tobacco and beer. The city is lighted by gas and electric light and has a good fire department, with a station on each side of the river. Stages tri-weekly to Farmington, Concord, Pipersville, Lebanon and intermediate points. Population, 11,000. Tel., W. U. Exp., Am. Justus T. Moak, postmaster.

WAUKECHON. Shawano county. *Name changed to Riverside.*

WAUKESHA. The county seat of Waukesha county, is situated in a beautiful and fertile valley, surrounded on either side with gradually ascending hills. The streets are laid out regularly and lined with double rows of shade trees. It is an important town, situated on the Little Fox river, 16 miles west of the city of Milwaukee. There are three railroads in successful operation, the C., M. & St. P. Ry, the C. & N. W., and Wisconsin Central, the latter having erected their shops here, giving employment to several hundred men, with a monthly pay roll of about $20,000. The chief interests of the town are its mineral springs, the healing properties of whose waters have brought Waukesha into world-wide prominence, and have obtained for it the title of the "Saratoga of the West." The shipment of the water in barrels and in a carbonated state have reached immense proportions. The first spring discovered more than fifty years ago is the Waukesha Mineral Rock Spring. Within twenty years, however, the Bethesda, Silurian, White Rock, Hygeia, Glenn Acme, Horeb, Arcadian, Clysmic, and quite lately, the Sotarian Spring, have come into existence, the last named shipping water all over this country and Europe. In order to accommodate the numerous visitors that arrive during the summer months, numerous and large hotels and boarding houses have been built; among others may be mentioned the Fountain Spring House, Ville View Hotel, the Spring City Hotel, Hyde Park and Park Hotels, American, National and Grand Ave Hotels. The manufacturing interests are represented by a carriage factory, a flour mill, a planing mill and a brewery. The town has inexhaustible and valuable stone quarries, the Hadfield quarry being one of the largest in the State. There are 2 banks, the National Exchange and the National, and 2 good opera houses. The public schools are of a superior order. District School No. 1, on Hadfield's addition, is a fine and large building and Waukesha is proud of its excellent schools and able corps of teachers. It has 10 churches, Congregational, Presbyterian, Baptist, Methodist Episcopal, Catholic, German Reformed, Lutheran and Evan-

Athletes! Our Stock of BOXING GLOVES, INDIAN CLUBS, DUMB BELLS, FENCING FOILS, Rapiers and Masks is Complete. JOHN MEUNIER GUN CO., 272 West Water Street, Milwaukee, Wis.

gelical Methodist, and the Carroll Academy. The State Industrial School for boys, is located here. The pupils are engaged in the manufacture of boots and shoes, socks, mittens and the clothing worn by the inmates. There is a large farm in connection. Three ably edited papers, the *Freeman*, the *Democrat* and the *Journal*, are published, and each has a good circulation. Waukesha has a well equipped fire department, lodges of the various secret and benevolent societies. Many handsome business blocks, which have been erected this season, testify to the constant growth and prosperity of the city. Waukesha is illuminated by gas and electric light and has sewerage to some extent. Taxes are low. Exp., U. S., N. P. and Am. W. U. Telegraph and Wisconsin Telephone Companies have offices here. Population, 6,500. F. H. Putney, postmaster.

WAUPUN. Is evenly divided between Dodge and Fond du Lac counties, but is, by the postal authorities, accorded to the latter. It is an incorporated city on the N. div. of the C., M. & St. P. Ry, and busses run to Chester station, 3 miles distant, making regular connections with trains of the C. & N. W. Ry. The manufacturing interests consist of a wind-mill and pump, factory, flour mill, brewery, plow factory cane factory, cheese factory, carriage works and the products of the State prison. The religious and educational wants are well attended to. It has a bank, a public hall and 2 weekly newspapers, the *Times* and the *Leader*. The products of the above factories, with grain and live stock, are shipped. Tel., W. U. Exp., Am. Population, 2,200. J. E. Brinkerhoff, postmaster.

WAUSAU. A flourishing city of 10,000 people is located on both banks of the Wisconsin river, in the center of Marathon county and near the geographical center of the State, 157 miles northwest of Milwaukee and 100 miles west of Lake Michigan, by way of Oconto and Sturgeon Bay. It has two lines of railway, the Valley division of the C., M. & St. P., which extends northward to Minocqua and is soon to be completed to Lake Superior, and the M., L. S. & W. which connects the great lakes with the Northwestern railroad system. It has a court house, soon to be replaced by one of the finest structures for judicial and county purposes in the State, which is now in course of construction. It is the commercial center of northern and central Wisconsin, and contains six large saw mills, while there are over fifty in the county adjacent to the city. An immense business is done in lumber of all grades, pine and hardwood, about 300,000,000 feet being the output of last year. Big Bull Falls, at this point on the river, affords an easily utilized and unlimited water power, the fall in the river being over twenty feet. Across the brink of the main fall stretches the beautiful and substantial steel bridge of the M., L. S. & W. Ry. The city contains the immense sash, door and blind factory of Curtis Bros. & Co. and the Werheim factory, two fine flouring mills, two foundries and machine shops, two tanneries, three planing mills, a large box factory, two breweries, four large hotels and numerous smaller but well conducted hostelries. There is a good high school, eight ward schools, a business and commercial college, and five parochial schools. The leading religious denominations are represented by the Catholic, Lutheran, Methodist, Presbyterian and Baptist, and there are sixteen church edifices. The city is provided with a fine system of waterworks, that supply as pure water as can be found at the famous health resorts; also a good system of sewerage, a gas and electric light plant. The business portion of the city is substantially built of brick and stone, and there are many fine residences, varying in value from $5,000 to $75,000; a $50,000 opera house and numerous fine public halls, a city hall and two fine engine houses; an electric system of fire alarms, and an efficient fire department. There are five weekly newspapers published, the *Torch of Liberty*, the *Central Wisconsin* and the *Pilot-Review* in the English language, and the *Pionier* and the *Wochenblatt* in the German. The shipments are extensive and comprise lumber, lath, shingle, pickets, railroad ties, tanbark and manufactured articles in lumber and granite. There is a gold, silver and galena mine on the northern border of the city, now being successfully developed. The county has no bonded debt, and the assessed valuation is $3,072,093. Tel., W. U. Exp., Am. and U.S. Three mails daily. A. W. Young, postmaster.

WHITEWATER. An incorporated city on the P. du C. div. of the C., M. & St. P. Ry, and on a small tributary of Bark river, in the northwestern part of Walworth county, 33 miles by rail and 18 by stage route from Elkhorn, the county seat, 51 southwest of Milwaukee, and 136 northwest of Chicago. Among the more important manufactories of the town may be mentioned the Esterly Harvesting Machine Co, employing about 500 men; mower and feed mill factories, 2 flour mills, a paper mill, a cheese box factory, a planing mill and a brewery. The products of the above, with live stock and country produce, form the shipments. The surrounding country has many cheese and butter factories, Whitewater being one of the greatest shipping points in Wisconsin for cheese, butter and eggs. There are 11 churches, Episcopal, Congregational, Methodist Episcopal, Baptist, Catholic, Universalist, 2 Lutheran and 3 Methodist. The educational facilities consist of the State Normal School with an attendance of 500, and 2 good public schools. Two weekly newspapers, the *News* and the *Register*, keep the citizens informed on all current topics of interest, and enjoy a good patronage. The city also has 2 banks, a public hall, an opera house having a seating capacity of 1000, 4 hotels and a number of handsome and substantial business blocks and private residences, and a complete system of electric light and water works. Stages daily to Fort Atkinson; fare, 75 cents; and tri-weekly to Elkhorn; fare, $1. Improved land in the immediate vicinity is worth from $40 to $75 per acre. No bonded debt. Exp., Adams. Tel., W. U. Population, 4,500. E. F. Donnelly, postmaster.

BE CAREFUL TO ADDRESS MOLINE PLOW CO. (NOT PLOW WORKS)

MOLINE PLOW CO.,

MAKERS OF THE CELEBRATED

FLYING DUTCHMAN SULKY.

The sales of this celebrated Sulky have risen from its initial plow to the goodly number of 10,000 per year, and the prospects for 1891 are better than ever before.

We have added Chilled Iron Bottoms to our list, and all parts of same are interchangeable with steel bottoms, which means with a steel bottom a cast share can be used when plowing gravel or sand lands. With a cast bottom a steel share can be used when in roots or sticky soil.

Do not buy a Sulky until you have seen the Flying Dutchman. Handled by responsible agents in all parts of the country.

We manufacture the celebrated Dandy Riding and Walking Cultivator; Western and New Western Walking Cultivators; Little Joker and New Eastern Tongueless Cultivators, each with all the modern attachments and improvements; the Moline Champion Corn Planter, with drill and check rower complete; Moline combined Pole and Shaft Rake (for 1 or 2 horses, no extra charge), Moline Champion Stalk-Cutters, Corn Drills, Harrows (among the latter a Steel Harrow which is practically indestructible); a full line of Steel and Iron Plows, Gangs, etc., etc.

Call upon your dealer, or address,

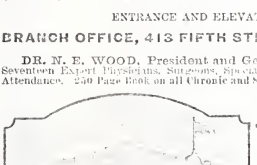
BRANCH OFFICE, 413 FIFTH STREET, - - SIOUX CITY, IOWA.

DR. N. E. WOOD, President and General Manager, Assisted by a Regular Faculty of Seventeen Expert Physicians, Surgeons, Specialists and Trained Assistants and Nurses in Constant Attendance. 250 Page Book on all Chronic and Surgical Diseases Free. (Postage 10 Cents.)



The Largest Medical and Surgical Sanitarium and Eye and Ear Infirmary in the West for the Treatment of ALL CHRONIC and SURGICAL DISEASES.

Thousands of Chronic Cases TREATED AT HOME through correspondence as successfully as if here in person.

ALL SURGICAL OPERATIONS performed by us under "Modern" and "Antiseptic" methods, in the MOST SAFE and SCIENTIFIC manner.

WRITE for our FREE BOOK (250 pages) on all Chronic Diseases, Deformities, Club Feet, Spinal Curvature, Tumors, Cancers, Catarrh, Paralysis, Epilepsy, Nervous, Skin and Blood Diseases, Eye and Ear, Female Diseases, and all Surgical Operations.

Best facilities, apparatus and remedies for the successful treatment of every form of disease requiring medical, surgical or sanitary treatment.

We supply patients with Batteries, Inhalers, Knees, Trusses, Syringes, Artificial Eyes, and all Kinds of Medical and Surgical Appliances Manufactured, and can furnish any Remedy, Instrument or Apparatus known, at a fair, reasonable price.

DR. WOOD, the Proprietor and Consulting Physician and Surgeon, has had twenty years' Hospital and Private Practice.

DR. WOOD'S

Lying-in Institutes,

Private Maternity Hospitals,

And a Safe Retreat for the Protection of Unfortunate Women During Pregnancy and Confinement.

Locations Retired, Pleasant and Healthful.

All business strictly confidential. Complete protection and absolute secrecy guaranteed. A home provided for the infant in all cases when desired. The best medical skill always at hand with facilities for any emergency. The Doctor and matron reside in the institution, and give their personal attention to the comforts of patients. Private rooms, trained nurses and all home comforts at reasonable rates. Board and rooms, medical fees and attendance, and all expenses, made known on application. Terms, invariably cash in advance. Respectable parties wishing to adopt a child or take it as their own, should correspond with us. We refer to leading physicians, Newspapers, Banks and Citizens. Physicians invited to correspond with, or refer cases to us when such come to their knowledge. Every courtesy and consideration will be extended to the profession.

Address Dr. NATHAN WOOD, Proprietor, "Wood Park," SIOUX CITY, IOWA.

Or, N. E. WOOD, M. D., 30 E. Van Buren St., CHICAGO, ILL.

ANTON RHEUDE'S
Business College

Cor. 6th and Chestnut Streets,

Branch Office at Res., 334 6th St., MILWAUKEE, WIS.

FOUNDED 1889. Attendance in 1891, 120 Scholars.

The Principal of this College is a Graduated, Professional, Experienced Teacher.

Students of either sex may enter at any time for the Preparatory Department, for the Business Course, and for Shorthand and Typewriting. The steady growth of this institution proves its necessity, excellence and popularity. The best instruction may here be secured for a moderate tuition.

DAY AND EVENING CLASSES.

Correspondence Solicited.

ANTON RHEUDE, Principal,
MILWAUKEE, WIS.

GUN BORING AND REPAIRING a Specialty. We have the best equipped shop in the State. We handle Guns, Ammunition, Base Ball and Athletic Supplies, Fishing Tackle of Finest Quality. The F. P. Stannard Gun Co., 414 E. Water St., Milwaukee, Wis.

A. J. ERDMANN,

DEALER IN AND AGENT FOR

BUILDING MATERIAL,

288 S. WATER ST., (Telephone 1491.) MILWAUKEE, WIS.

Pittsburg Mineral Wool and Mineral Wool Steam Pipe Covering.

The properties of Mineral Wool which commend it for use in buildings, heating boilers, cold storage, breweries, schoolhouses, etc., are as follows:

FIRST.—Perfect insulator of heat or cold.

SECOND.—Best known deadener of sound.

THIRD.—Absolutely fireproof, thus preventing the spread of fire.

FOURTH.—Freedom from rats, mice and insects.

FIFTH.—Remarkable lightness of weight—averaging to the square foot from one-half to one-fifteenth the weight of ordinary mortar and other substance.

WEIGHT.—One cubic foot weighs about 12 pounds. One square foot, one inch thick weighs about 1 pound.

J. DUNFEE & CO.,

Parquette Floor and Wood Carpets.

Any Design Executed or Designs Made and Prices Furnished on Application.

C. J. L. Meyers' I X L Polished Maple Floor and Basswood Ceiling.

This Floor is sandpapered by machine and does not require smoothing after it is laid. The ends are also cut square, which makes it from ten to fifteen dollars cheaper than any other floor.

Endorsed by the leading Contractors of Milwaukee.

Artistic Stained and Mosaic Glass

For Churches, Public Buildings and Dwellings.

FRENCH Mirror Plates.

Beveled, Embossed, Cut, Ground and Ornamental Glass.

CHICAGO ANDERSON PRESSED BRICK CO.

Pressed Face, Shape and Ornamental **BRICK**

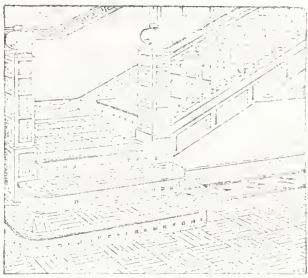
48 Randolph St., - - CHICAGO, ILL.

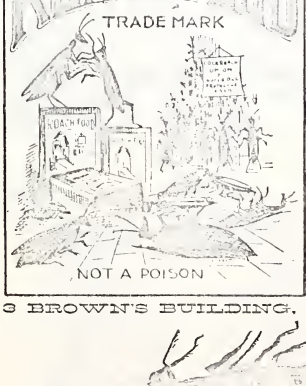
The Largest of the Kind in the World



PETERMANS

ROACH FOOD

TRADE MARK



3 BROWN'S BUILDING.

PETERMAN'S ROACH FOOD

The People who have used PETERMAN'S ROACH FOOD so highly recommend it to their friends and neighbors that it is selling as fast as it can be made.

IT HAS NO EQUAL IN THE WORLD,

as it attracts the roaches and Water Bugs as a food, which they like better than anything else. They all eat it and die.

FATAL

To Cockroaches and Water Bugs.

NOT A POISON.

Put up in 25., 50., and 75c. MAILABLE CANS.

Sold by all the principal druggists and grocers in the United States.

To those who cannot find it at the stores in their vicinity it will be sent by mail by

A. B. & H. S. BAINES,

Manufacturers' Agents,

BUFFALO, N. Y.

A. PETERSEN & CO.

Chicago & Grand Trunk Ry. The Favorite Route East VIA NIAGARA FALLS.

Are You Dealing in Wines and Brandies?

A Hint to the Wise is Enough.

Goods that are Well Bought are Half Sold.

"The Jarvis Reisling Grape Brandy"

Is Equal to the Imported at about Half the Price.

Its Uniform Strength and Guaranteed Purity makes it both Desirable and Profitable.

WE HAVE BRANDY, VINTAGE 1869, AND FROM 1877 DOWN TO THE PRESENT TIME.

We Have Hundreds of Barrels and Half-Barrels Ageing, and can sell at almost All Prices, as the age of the Goods has most to do with the Price.

We also have immense Stocks of Port, Sherry and Blackberry Wines, both in the East and on the Coast, and we can supply it from a Keg to a Carload.

SEND FOR CIRCULARS AND PRICE LIST.

Nobody in the United States can sell you Cheaper or Better than we can.

Respectfully, THE G. M. JARVIS CO.,

SAN JOSE, CAL.

BRANCH: 39 N. State Street, CHICAGO, ILL.

WE MANUFACTURE and are prepared to furnish you

EGG CASES AND FILLERS

AT LOWEST MARKET RATES.

Our FILLERS are strictly Hand-Made, and will outwear any other in the market. None but first-class straw-board, especially made for us, thoroughly dry and well adapted for COLD STORAGE purposes, is used in the manufacture of same. We also sell packing material, CORK, etc.

EXTRA DIVIDING BOARDS for cold storage or shipping. Will make special low rates to car-lot buyers. Write or wire for particulars,

E. T. WHITING'S

Patent Hot Air Drum.

WAS awarded the diploma at the Wisconsin State Fair held in Milwaukee September, 1890, and is, without doubt, the most perfect Radiator in the market. It has more heating surface than any other drum made, and by virtue of the hot air system represented it heats both by radiation and circulation. It is the easiest cleaned and easiest regulated of anything of the kind in use. The neatness of its construction gives it a preference over other drums, as it is an ornament to any room.

This drum is made in three styles. The cut represents the one now in general use. Then another with the main pipe on one side to be used on back of stove or where the pipe is close to the wall; the other is made especially for soft coal. It is easily cleaned, as the top comes off, but it is so constructed that not a particle of gas or smoke can escape. By closing the damper in center pipe all smoke, hot air, and gases are carried through the exterior pipes from the lower chamber to the upper one, and then to the pipe above. The smaller interior pipes extend entirely through each chamber, and the pipes connecting the same are open at each end and are surrounded by hot air passing through the large pipes. The cold air enters these interior pipes from beneath, becomes heated to a high degree in its passage through them and escapes from the top; thus a direct circulation is established, resulting in an equal distribution of heated air to all parts of the room. The temperature of the room can be regulated by the lower damper, as the drum has a direct draft when the damper is not in use. The drum is about 15 inches in diameter and made to take the place of one length of stove pipe. It is the only heating drum manufactured that works as well on coal, wood, gas or oil stoves.

Upper rooms may be heated without extra cost. It not only saves fuel, but an extra stove and the trouble of keeping up a fire. We save money when we obtain the full benefit of the fuel consumed. Why let one-half of the heat pass into the chimney when this Radiator will utilize it all and reduce your fuel expenses in proportion? It is simple, convenient, neat-looking and cheap. When buying, why not get the best as long as you can get it as cheap? **Price, $4.50 to $6.00.** For further particulars, address

E. T. WHITING,

DARTFORD, - - WISCONSIN.

E. T. WHITING'S ICE CARRIER.

IN introducing this simple yet valuable article, I would call attention to a few of its merits, an examination of which will soon convince Ice Cutters that in this Carrier they will have an article that will save them money, time and a great deal of hard labor.

It never gets out of order; can be used on any ordinary slide. It is easily managed and always reliable. Ice men who have used it all agree that it is far superior to any method in use for handling ice on the slide.

By the use of this Carrier the labor of one man is saved, as it unloads itself and is brought back to place by the rope in rear, thus saving the hard as well as dangerous work of going up and down the slide. When the Carrier is placed around a cake of ice, three sides are firmly held in place, so there is no danger of cake slipping or breaking. Three cakes of ice can be elevated at once. Send for illustrated Catalogue.

PRICE, $2.50.

The American Land and Title Register ASSOCIATION

Is an Association of Attorneys, with representatives in all parts of the United States and Canada; its business is that of perfecting titles to real estate, finding lost or unknown heirs, procuring evidence, foreclosing mortgages and other real estate litigation. All parties having or claiming an interest in realty in the United States or Canada, either for themselves or as heirs of such owners, and who wish to enforce said claims, will do well to correspond with us. Many interests supposed by the owners thereof to be worthless, are very valuable, and large sums may be realized from them, either through recovery by law, or compromise with the adverse claimants.

A LIST OF COMPETENT ATTORNEYS IN ALL PARTS OF THE UNITED STATES AND CANADA FURNISHED FREE ON APPLICATION.

For the benefit of Mortgagees and those wishing to invest, we will furnish, through our bureau of information, unprejudiced valuations on Real Estate in all parts of the country.

Investments made and loans carefully placed on conservative valuations, for non-residents.

We also publish the AMERICAN LAND AND TITLE REGISTER, issued monthly, giving the names of hundreds of people who are wanted by us, or by heirs-at-law and owners of valuable outstanding interest in realty, who offer a stated reward for the finding or locating of each person so named. This paper also contains our list of attorneys.

NO CHARGE MADE TO SUBSCRIBERS FOR INSERTION OF NAMES OF PERSONS WANTED UNLESS WE ARE SUCCESSFUL IN FINDING THEM.

Subscription Price, $3.00 per Year.

DOERING'S
Patent Stitching Horse.

H. DOERING,
Patentee and Manufacturer.

To The Harness Makers' Fraternity, GREETING: I desire to call the attention of harness makers and the trade in general to Doering's Patent Stitching Horse, undoubtedly the very best horse on the market to-day.

POINTS OF MERIT IN WHICH IT EXCELLS.

I. Will hold all work firm and not let it slip.
II. You do not have to kink round or square lines, all you have to do is to place them in straight between jaws and they cannot slip out.
III. For strap work, bridles, and in fact on all work it leads the world.
IV. Especially adapted to the manufacture of collars.
V. As work is held perfectly rigid, you would soon make the cost of the Horse by time saved; as much time is lost where the old style horse is used by having work constantly slipping.

H. DOERING, Patentee and Manf'r.

WARRANTEE.—I hereby warrant "Doering's Patent Stitching Horse" to give perfect satisfaction and to be as represented or money refunded. Thirty days' trial given on all horses. H. DOERING, Reedsburg, Wisconsin For sale by Responsible Dealers or by the Manufacturer.

THE LATEST IMPROVEMENT IN
Harness Sewing Machines

THE NEW STANDARD LOCK-STITCH WAX-THREAD

Harness Sewing Machine.

The only machine sold in the United States which, with Waxed Thread, makes the Double-Thread Lock-Stitch, alike on both sides, and pronounced by some of the best harness manufacturers in the United States, "EQUAL TO HAND SEWING."

Send for samples of work, Catalogue and testimonials.

JOHN O'FLAHERTY,
P. O. Box 1321, MONTREAL, CANADA.

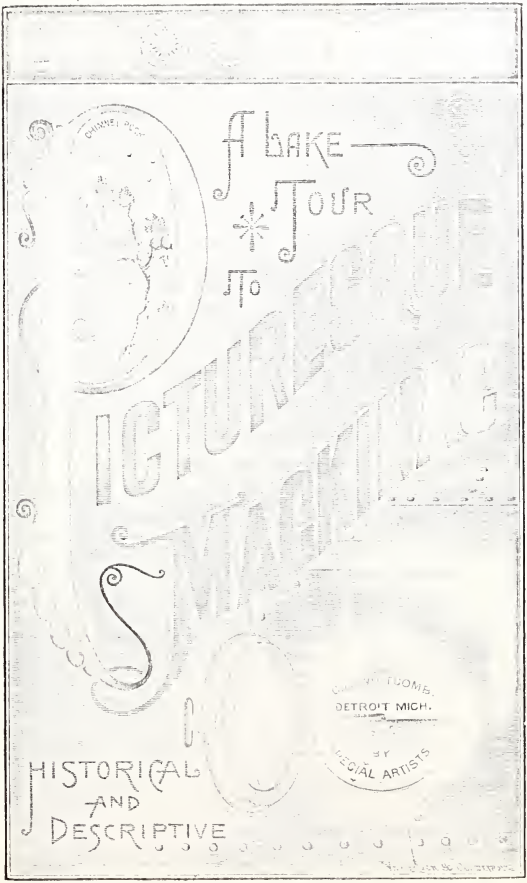
The story of Picturesque Mackinac has caused thousands of strangers to visit our Northern Lakes. Its truthful pictures by both pen and pencil excite wonder and admiration. The original design, embracing both illustrative and typographical features, has recently been much improved, and the revised edition, now in press,



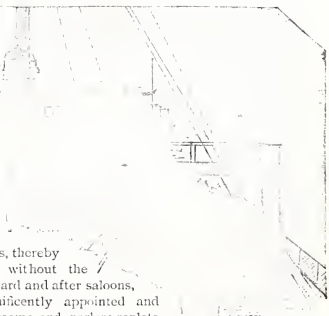
will certainly prove the most powerful exponent of the Great Lakes ever published, while as a tourist guide it is unrivaled, as it both interests and instructs. Address E. B. WHITCOMB, DETROIT, MICH.

A synopsis of the book, under title of "Midsummer Voyages on Northern Seas," containing additional routes and rates, mailed free of charge on application.

A copy of the work will be forwarded on receipt of 5 cents in stamps to pay postage.

five steamers, the largest, swiftest and most luxurious on fresh waters. The company builds none but steel vessels of the strongest pattern, thus securing, with the addition of sufficient watertight compartments, practical indestructibility.

While all the newest marine ideas of real merit are invariably made use of, the policy of the management is well defined in the uniformity of general design. The steamers are roomy side-wheelers, propelled by the Clyde patterned feathering wheels, thereby developing a marvelous speed without the slightest jar or noise. Their forward and after saloons, of solid mahogany, are magnificently appointed and tastefully decorated, and their rooms and parlors replete with wire and hair mattresses, Pullman blankets, electric lights, etc. The lower saloons are devoted to dining halls, which entirely separate the culinary departments from the main cabins. The cuisine, which is equal to that of any first-class hotel, includes all the luxuries of the season, and the price charged barely meets the outlay. In fact, it may not be egotistical to say that the Detroit and Cleveland Steam Navigation Co. offers to persons of fastidious tastes the only solid satisfaction to be found in inland travel.

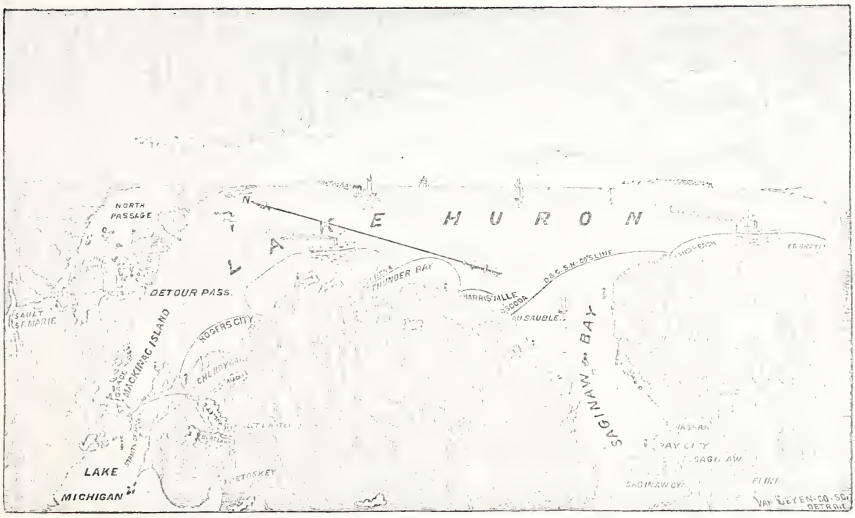


MOONLIGHT ON THE LAKE.

THE LAKE ERIE DIVISION.

BETWEEN Detroit and Cleveland may be called the main stem of the company's lines. Operated between two large cities, a sufficiently steady patronage is received to warrant the best of service, and to this end two mammoth sister ships have just been built. Their extraordinary size and grandeur has placed the route in the front rank of that comparatively small array of trunk lines to which travelers of experience look forward with pleasant anticipations. We may describe the new City of Detroit, the latest addition, as being 300 feet long by 72 feet wide and 16 feet molded depth, with hull divided into nine water-tight compartments. The boilers are four in number, and carry 110 lbs. of steam. The engine is a compound beam of 2700 horse-power. The grand saloon is of solid mahogany, and contains a double tier of state-rooms connected by a broad gallery. It is 240 feet in length, and its dome rises 20 feet overhead. There are over 140 state-rooms and parlors, each lighted by an electric lamp. The City of Cleveland is similar in every respect. A steamer leaves either city late in the evening and arrives at her destination long before breakfast, making connections with all arriving and departing trains, and forming by far the shortest and cheapest as well as the most delightful route between many far distant cities. Steady travelers, usually confined to the hot, dusty, noisy rail car, always avail themselves of the charming quiet, cool fresh air and luxury of a full night's rest afforded by this water route. The Sunday night trips, from June to September, are very popular and have proved a great convenience.

Passengers intending to continue their voyage on the steamers of the Lake Huron Division may so plan their departure from Cleveland as to make direct connections at Detroit, or have a day for sight-seeing. The Tuesday or Thursday



BIRD'S EYE VIEW LAKE HURON DIVISION, DETROIT AND CLEVELAND STEAM NAVIGATION COMPANY.

A LUMBER PORT.

steamer from Cleveland finds the other almost ready to depart, while the Friday or Sunday steamer will necessitate a stay in Detroit till evening. In either case the Lake Huron steamer will be found at the Company's dock on the arrival of the Lake Erie steamer, and passengers may at once transfer to and take breakfast on the former, which they can make their home.

Passengers arriving in Detroit by rail or otherwise, on Tuesday and Thursday evenings, and intending to take the Lake Huron steamer the next morning, may at once proceed on board and occupy their state-rooms free of extra charge, thus becoming settled down and in a position to enjoy, as a spectator, the exciting scenes incident to departure the next day.

THE LAKE HURON DIVISION

EXTENDS from Detroit to Mackinac Island on the Straits of Mackinac, a distance of 350 miles, mostly through Lake Huron. From Detroit to Port Huron, at the foot of the lake, the scenery is most charming, embracing the headwaters of the Detroit River, the placid Lake St. Clair, the far-famed Government ship canal, the famous St. Clair Flats fishing and shooting ground and the majestic St. Clair River. From Port Huron, all suggestion of land disappears on the starboard bow, and only shows faintly on the port or American side. Occasionally, when the steamer approaches a way port, the passengers have time to gather some ideas of the characteristics and occupations of the inhabitants of this purely lumber region, but for the most part of the twenty-four hours spent on Lake Huron, they will experience the sensation of being in midlake.

Considerable interest attaches to many way ports because of their note as camping or resorting spots. At St. Clair or Port Huron clubs are constantly located from July to September, and at Oscoda, Alpena, Cheboygan and St. Ignace bodies of hardy men may frequently be seen embarking or debarking. Those leaving the steamer are making for some inland lake or stream; the others need naught but the trophies of their skill to tell of their whereabouts during the preceding two weeks. In fact, the whole of the country surrounding Mackinac offers endless attractions to the adventurous. Well-stocked rivers and lakes abound, and the interminable forest is still overrun with furred and feathered creatures.

After touching at Mackinac, the steamers cross to the freight terminus of the route at St. Ignace. This occupies from four to six hours, and those who wish to return at once can, without laying over, see considerable of the main points of interest at the famous National Park, if they engage one of the charioteers for a drive.

This delightful round trip of 920 miles from Cleveland or 700 miles from Detroit occupies 4½ days from the former or 2¾ days from the latter point. It costs but a trifle more than $4.00 per day all told, and at that price is most emphatically within the reach of all. You cannot go anywhere and compass so much enjoyment and solid comfort by the way. A summer trip should be planned to get all the quiet and fresh

ARCH ROCK, FROM THE BEACH.

air possible. Such complete relief is only found by taking a water trip, where the scenery is varied and attractive, and there is ample time for a good look at every interesting object.

THE COST OF A ROUND TRIP

CANNOT be intelligently shown without some explanation. By the company's advanced system, meals and berths are not included in the price of a ticket, and patrons are at liberty to provide for themselves if they so desire. Berths are in rooms, and cost $1.00 for the upper or $1.50 for the lower, on each steamer, no matter if the trip be one or two nights. The whole room accommodates three persons and costs $2.50. Meals cost 50 cents each and may be estimated by the time card. These expenses are invariable, except for children under five, when the meals are 25 cents. Our table of costs is not guaranteed, but the figures are more likely to fall below than rise above the estimate.

	FROM CLEVELAND.	FROM DETROIT.
Transportation	$ 9.00	$ 7.00
Meals	5.00	4.00
An upper berth for the trip	4.00	2.00
Total with upper berth	$18.00	$13.00
Extra for a lower berth	2.00	1.00
Total with lower berth	$20.00	$14.00
Two persons in one room	38.00	27.00

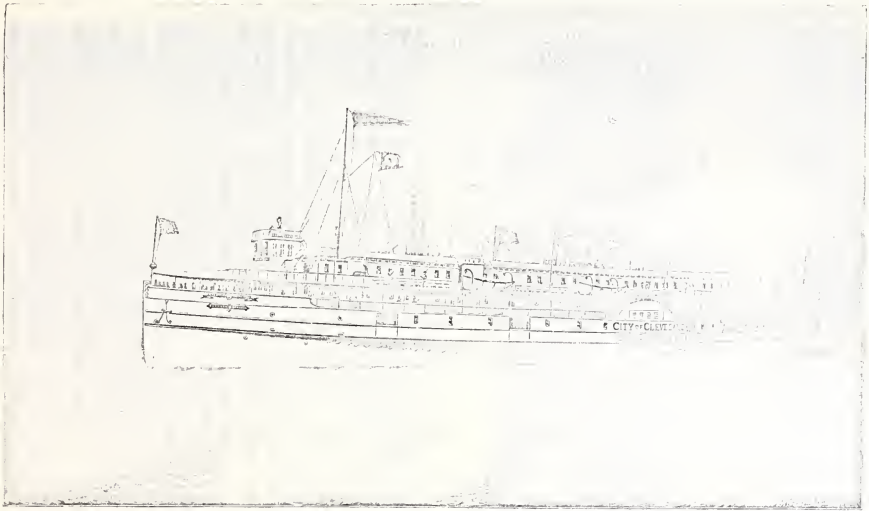
Total cost, three persons in one room	$52.00	$38.00

Only the transportation is purchased in a through ticket. Meals and berths are arranged for exclusively by the company.

MACKINAC ISLAND.

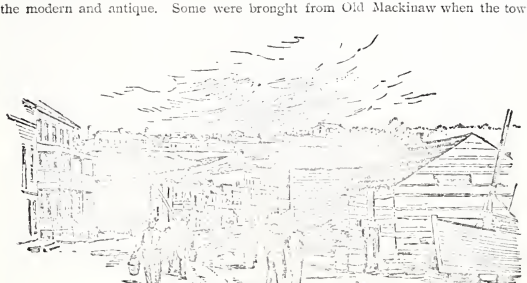
THE rockgirt, fairy isle, sitting like an emerald gem in the clear, pellucid wave, rises majestically from the crystal waters, which cover but cannot conceal the glistening, white pebbly depths beneath. It is the central point of the three great lakes. It knows no land breeze, hence the winds are always cool and refreshing; they never cease flowing. Its area is over two thousand acres, of which the national park and military reservation comprise about nine hundred. The natural scenery is unsurpassed. Nature seems to have exhausted herself in the manifold objects of interest which meet the eye in every direction. The lover of Mother Earth will hardly grow weary of wandering through its shaded glens, and climbing over its rugged rocks, each day bringing to light some new object of beauty and interest. Longfellow, in his poem of "Hiawatha," has put into English verse some of its wild Indian legends, which people every rock and glen with spectral habitants. If the poetic muses are ever to have a new Parnassus in America, they should certainly fix on Mackinac Island. Hygeia, too, should place her temple here, for it is one of the purest, dryest, clearest and most healthful of atmospheres.

Nothing can exceed the beauty of this island. It is a mass of calcareous rock, rising from the bed of Lake Huron, and reaching a height of more than three hundred feet above the water. Some of its cliffs shoot up perpendicularly, and tower in pinnacles like half ruined gothic steeples. The island shows unmistakable evidence of the water having once been two hundred and fifty feet above its present line. It is a mooted question whether the lake has fallen from its original level, or the island has been lifted up. It is cavernous in places, and in these the ancient Indians were wont to place their dead. Portions of the beach are level and well adapted for landings.



THE DETROIT AND CLEVELAND STEAM NAVIGATION COMPANY'S NEW STEEL STEAMER CITY OF CLEVELAND.

The harbor at the south end is a little gem. In it, vessels can anchor and be sure of a holding, and around it the little old-fashioned French town nestles in primitive style, while above frowns the fort, its white walls gleaming in the sun. This village is a perfect curiosity in itself. Situated at the foot of the bluff, its two streets extend for a distance of a mile along the beach. The buildings are a ridiculous mixture of the modern and antique. Some were brought from Old Mackinaw when the town



A STREET IN OLD MACKINAW.

and fort were removed from that point after the massacre of June 4, 1763. Many of the fences are of the original palisade style. The whole area of the island is one labyrinth of curious glens and valleys. Old fields appear in spots which were formerly cultivated by Indians. In some of them are circles of gathered stones, as if the Druids themselves had dwelt there. The island was formerly covered with a dense growth of rock maple, oak, iron wood, etc., and there are still parts of this ancient forest left, but all the southern limits exhibit a young growth. There are walks and winding paths of the most romantic character among its hills and precipices. From the eminences overlooking the lake can be seen magnificent views of almost illimitable extent, and as the observer gazes from the rocky battlements of the fort upon the surrounding waters, there steals upon him a sense of security which seems a complete bulwark against the host of Summer annoyances.

The late Dr. Drake says: "The island is the most important summer resort to which we can direct the attention of the infirm or the fashionable. As a health resort it is unsurpassed. Its cool, dry air and the living streams of pure water which gush from the lime rock precipices, are just what are needed to bring back the glow of health to the faded cheek, and send the warm currents of life dancing through the system, superseding all necessity for nauseating iron, sulphur and epsom salts."

At watering places generally, all the features of the surrounding scenery are soon familiarized to the eye, which then merely wanders over the commingled throngs of coquettes, dandies, dancers and idlers, and soon returns to inspect the real or fancied infirmities of its possessor. A visit to Mackinac reverses all this. Its natural beauties and historic associations, together with the innumerable lesser attractions which cluster round about, serve to furnish visitors with so much entertainment and variety for either the robust or weakly ones, that ennui which eventually is felt at most resorts need not be experienced here. You eat with a new relish, and sleep like a child.

MACKINAC VILLAGE, AS SEEN FROM THE GUN PLATFORM OF THE FORT.

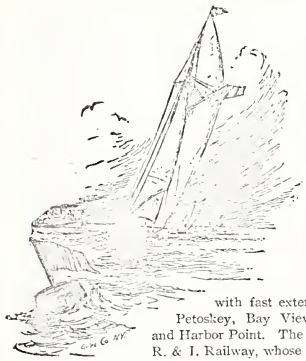
You row, or ramble, scarcely able to keep your buoyancy within bounds. Dr. Mills, once post surgeon at Mackinac, says: "No better place can be found for sickly girls and puny boys, for worn-out men and women. From the hour of entering Lake Huron, your feelings will indicate that you have passed beyond the reign of miasma, fever, dyspepsia, blue devils and duns, and you look back upon the whole of them with gay indifference, or a feeling of good-natured contempt, as every turn of the steamer's wheel carries you farther into the temperate and genial climate of the lakes, and away from your perplexities. Under these influences real diseases may abate, and the imaginary ones be forgotten, and this salutary mental excitement will not soon die away, for the historic associations, not less than the surrounding scenery, are well fitted to maintain it." Dr. Mann says: "A few whiffs of the air would make your lungs give a hygienic laugh. Children are crazy with animal spirits, and eat in such a way as to demonstrate the paradox that the quantity contained may be greater than the container." These extracts will no doubt meet with a hearty response from thousands who have visited Mackinac.

Dr. Hammond, the famous physician, says: "I have no hesitation is saying that it is the best summer resort of which I have any knowledge, for persons whose nervous systems are run down, or who desire to be built up and strengthened."

HOTEL ACCOMMODATION

IS a very satisfactory problem at Mackinac. There are innumerable hostelries of every grade of price and corresponding service. If the tourist wishes to study the ancient features of the island from their stronghold, he will put up at the John Jacob Astor House. This was originally the headquarters of the American Fur Company, and a glance at its low ceilings, scored by heavy timbers, its ancient fireplaces, its clumsy iron door locks, and its old storing vaults will satisfy any lover of antiquities, even before he has been invited by the genial proprietor to inspect the account books of four score years ago. The Mission House, at the extreme easterly point of the island, is another relic of ye olden time. Commanding one of the best views on the island, it is very popular with those loving quiet repose.

The place of all places for the fashionable resorters is Plank's Grand Hotel, situated on a commanding eminence at the western end of the island, and facing the straits. This hotel is the largest summer resort in the West, accommodating as it does upwards of 1,000 guests, and representing a capital of $300,000. Its rates are from $4.00 to $5.00 per day, and the season extends from July 1st to September 20th. This tremendous building is 650 feet in length and five stories in height. Its architecture is of the "Old Colonial" style, the distinctive feature being a colonnaded portico, 30 feet wide, upon which the windows of every floor open. The interior is well arranged and fully equal to every demand of the most fastidious taste. The lower floor is occupied exclusively by the dining-hall, drawing-room and private parlors, with the large rotunda office in the center. The dining-hall is a mammoth apartment, capable of seating 600 people. It occupies the space of two stories, the vaulted ceiling being 27 feet overhead. The guest rooms are large, light and airy. Each front suite is provided with a private balcony. The hotel is lighted by gas and electricity, heated by steam, and provided with elevator and electric call and fire alarm bells. It is also supplied with barber shop, bath-rooms, steam laundry and a first-class livery. A metropolitan orchestra is in constant attendance. The grounds have been made very attractive and a casino constructed for indoor sports. The hotel is under the management of Mr. J. O. Plank.



MACKINAC REGION.

ALL of Northern Michigan's many attractions are within easy reach of Mackinac Island. Indeed, so central is this spot, that the "Mackinac Region," as commonly spoken of, is supposed to include every attraction of the Great Lake Region of Upper Michigan. All methods of travel may be called into use, and all seem to start from a common center or hub, radiating as they do from this small island. Perhaps the most important of these secondary points is the Little Traverse Bay. Here, clustering within a mile or two of each other, and with fast extending suburbs almost touching, are Petoskey, Bay View, Wequetonsing, Harbor Springs and Harbor Point. The most expeditious route is via the G. R. & I. Railway, whose excellent train service renders communication possible at almost any hour of the day. The distance by this route is only thirty-five miles from Mackinac City, the nearest point to Mackinac, on the mainland. They may also be reached by either the day or night lines of steamers by way of Lake Michigan. By these lines the mileage is nearly doubled, and the better part of a day or night occupied in the journey. By far the prettiest route, however, is via the picturesque Inland Line of steamers through Mullet Lake and Indian River. The Michigan Central Railroad leading directly south, touches Topinabee and Indian River in an hour's ride from Mackinac. These points are also local to the Inland Route.

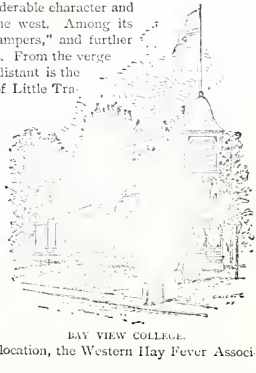
Charlevoix and Traverse City, on Grand Traverse Bay, are best reached by the steamers on Lake Michigan. They are about a days' ride from Mackinac.

A line of splendid steamers makes daily trips to Sault Ste. Marie, leaving Mackinac about nine in the morning, and passing all of the superb scenery of the St. Mary's River by daylight. At the Soo, connections are made with the through steamships running to the north and south shores of Lake Superior and to the Canadian ports situated on Georgian Bay.

In a water trip to Chicago or Milwaukee, there is considerable diversity of choice. The Lake Michigan and Lake Superior Transportation Co.'s steamers running without stops straight through the center of the lake, afford a quick trip and the novelty of being in mid-sea for twenty-four hours. The Northern Michigan steamers, coasting to all important points on the Lake Michigan east shore, and consequently taking up more time, afford the tourist a better opportunity to view the industries of the region. Coming back to the service more directly connected with the island, we may mention that nothing gives a more general idea of its wonders than a trip around its shores in one of the numerous steam yachts. These trips are on at all hours of the day. So, also, are the fishing excursions to Les Cheneaux, than which no more delightful way of spending one day may be contrived. The ferry steamers, and the constant movement of steamers of regular routes, afford excellent opportunities to visit the mainland either north or south at any hour of the day or night.

PETOSKEY is a charming resort situated on the side of a high bluff near the head of Little Traverse Bay. The town numbers 3,500 souls, and has a water front

of 1½ miles, to which a long pier gives considerable character and life. A lofty limestone cliff flanks it on the west. Among its trees may be seen the tents of many "campers," and further on the pretentious villas of wealthy residents. From the verge of this cliff the view is superb. Five miles distant is the ridge of hills that lines the opposite shore of Little Traverse Bay. These sweep in a symmetrical curve around this vast amphitheatre, and follow up the hither shore until they rise and terminate in high cliffs. The white line of pebbly beach which stands out so prominently against the green of the hills now takes an abrupt turn to the left, and forming a crescent two miles long, ends in a wooded point.



BAY VIEW COLLEGE.

No summer resort or watering-place on the continent can boast of purer air, fresher breezes or better hotels. Facilities for recreation are also good. Boating on the bay and short excursions by steamer or railroad may be indulged in at all times. Owing to the salubrious climate and central location, the Western Hay Fever Association makes its headquarters here

BAY VIEW, of Summer University fame, lies one mile further up the beach. Though but a few years have passed since the location of the grounds, this Assembly has become immensely popular in the East and South, ranking next to Chautauqua in size and completeness. The location is beautiful and no expense has been spared in improving its natural advantages. The land rises in natural terraces from the bay and affords cozy and picturesque sites for the four hundred cottages, of which glimpses may be caught through the trees. Clear cool water has been brought to these cottages through pipes from a never-failing spring further up the hill side.

HARBOR SPRINGS lies six miles further round the shore of Little Traverse Bay. It is located on a beautiful harbor (Wequetonsing) formed by the crescent of Harbor Point. Along the water's edge are large springs from which gush streams of water as clear as air and of a temperature only 12 to 15 degrees above freezing point. The history of the place is full of interest. Pieces of pottery show that it was once a stopping place for the ancient mound builders. It was for many years a central point for the payment of annuities, and for ages a favorite camp ground for the Indians. Many curious legends are extant. Strangers always visit the antiquated Catholic church, founded more than 200 years ago by Marquette.

THE HARBOR POINT RESORT, directly opposite, is singularly favored. The strip of rolling land on which it is situated is hardly more than a stone's throw in width, and while on the outer shore the heavy surf of Lake Michigan rolls grandly over a fine bathing beach, the children may with perfect safety paddle about the harbor within. Besides the large amusement hall and hotel which stands high above the beach on the breezy Lake Michigan side, the resort includes numerous cottages, which are provided for such of the guests as prefer the seclusion of their own roof.

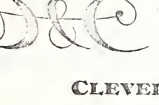
CHARLEVOIX, 18 miles below Petoskey, on the Lake Michigan shore, is a most picturesque spot. The beautiful little town is situated at the mouth of a short strait, the outlet of Round and Pine Lakes. Further up, and just between the lakes, are the handsome grounds and residences of the Kalamazoo and Chicago Resorts, which occupy the north and south shores respectively.

THE INLAND ROUTE is undoubtedly the most interesting one between Mackinac and Petoskey. Nothing short of a water trip through the heart of Florida can compare to this wonderfully novel route by crooked rivers and lovely lakes, across the northern end of Michigan. Even with the former the comparison ends here, as the salubrious climate and the high forest grown shore are lacking. A little steamer leaves Mackinac at 7 o'clock, Cheboygan at 9 o'clock every morning, and after picking her way among logs and booms, past saw-mills and through the lock, steams up the crooked Cheboygan to Mullet Lake. The lake is 12 miles long by 5 wide, with a charming ruggedness of outline, caused by the thickly wooded hills which completely encircle it and form its shores. Topinabee, a favorite spot for campers, is situated at the further end, and here the passengers debark for dinner. After a short rest the little vessel resumes her journey, and worries through Indian River into Burt Lake the lower end of which is crossed in reaching Crooked River. The latter stream is the shallowest and most crooked of the three, and although the steamer draws but thirty inches of water, it is only by a constant succession of twists and turns, scrapes and pushes and stops and backs that she gets through to Crooked Lake, where after a run of three miles, she ties up to the wharf at Oden, after an exciting and highly interesting day. A dummy starts immediately on the eight-mile run to Petoskey, where it arrives in season for supper. The little steamers Romeo and Juliet, which compose this line, are marine marvels. A vessel capable of carrying 150 passengers, which may safely and constantly make the trip through mid-lake from Mackinac to Cheboygan, yet at the same time is compact enough to wriggle through stretches of river that would seem impossible to crafts larger than a skiff, must be the handiwork of a genius. The twin screw system now in use on the most famous ocean flyers, has been employed in miniature to furnish the motive power. This enables the boat to turn in her own length, but even then, poles and ropes are in frequent demand, and the ingenuity and experience of the captain is taxed to the utmost.

MARQUETTE, the metropolis of Lake Superior country, is a very handsome city. Its business portion displays great activity and metropolitan tastes. Its residences, which are exceedingly beautiful, are placed high up on a bluff to the north, and command a view of the lake for 30 miles. While its central location makes it a capital base of operations for all the lovers of the rod and gun who visit these natural game preserves, it possesses no small attractions within itself. Speckled trout may be caught in the streams near by, while in the bay lake trout of twenty to thirty pounds in weight furnish exciting sport. The hotels are of the best, and everything necessary for hunting and fishing may easily be obtained.

THE TRIP TO THE SOO is worthy of note. The steamer after rounding Mackinac Island follows the northern shore of Lake Huron as far as Detour, at the entrance of the St. Mary's River, where the real interest begins. The river is 62 miles long, and is composed of a succession of beautiful straits and broad lakes. It is almost entirely shut in by high hills, which rise from the water's edge. In the many beauties and eccentricities of the stream and its outline, it is freely compared to the Hudson and other famous rivers. The channel is narrow, crooked and shallow, however, and must be passed by daylight. This is usually accomplished at dawn, this line being the only one which makes it at mid-day. The river is full of islands, and there are many popular hunting and fishing resorts along its course.

SAULT STE. MARIE, a city of 8,000 inhabitants, may be reached by rail or water. There is much of interest about the old place. It lies on the left bank of the river, just below the famous government ship canal, built for the purpose of passing the St. Mary's Rapids. The government works are exceedingly interesting. The immense and perfect structure of masonry, the water power which runs all the machinery necessary to operate the monster gates of the lock, and the dynamos which furnish the electric lighting, are perfect in all their details, and well display man's ingenuity.



LAKE ERIE DIVISION.

Steamers CITY OF CLEVELAND and CITY OF DETROIT (New)

DAILY LINE BETWEEN

CLEVELAND and DETROIT.

LEAVE CLEVELAND 10.00 P. M.—After the arrival of ALL trains. Passengers due in Cleveland via B Line at 9.45 p. m., or via Erie at 9.00 p. m., should notify Conductor of th wish to catch the steamer.

ARRIVE DETROIT 5.00 A. M.—Making connections with EARLIEST trains in every direction. By t route passengers may reach the Saginaw Valley at 10.55 a m., Grand Rap at noon, and other points at correspondingly early hours.

LEAVE DETROIT 11.00 P. M.—After the arrival of ALL trains. Passengers due in Detroit via Michig Central Fast Train at 10.45 p. m., or via Detroit, Lansing & Northern at 10 p. m. should notify Conductor of their wish to catch the steamer. By this ro passengers may leave Bay City, Saginaw, Grand Rapids, Niles, Kalamazoo, etc., at supper and reach Cleveland following morning.

(Standard Time.)

ARRIVE CLEVELAND 5.30 A. M.—Connecting with EARLIEST trains East, South and Southwest, reaching Pittsburg or Columbus at noon.

CLEVELAND WHARVES, 23 River Street. DETROIT WHARVES, Foot of Wayne Str
